CONTENT

THE MISSION IS TO EQUIP 1 MILLION TO *THRIVE*

We; the architects of ventures have been misguided. Unintentionally, yes but misguided all the same.

We have faithfully deployed the tools designed to manage conventional business to build our unconventional businesses. We have deployed the play-book designed for business-as-usual to attempt business unusual.

We have installed the operating system for the established in our unestablished environments.

This is a Clarion Call

to shift perspective

rethink.....

retool.....

reapproach...

THE COACH ACADEMY

WHAT IS IT?

An intensive virtual boot camp consisting of six online sessions over the course of six weeks.

Each session is 3-4 hours.

In each session, we go deep into innovation frameworks and processes at a granular level.

WHO IS IT FOR?

ASK YOURSELF...

- Am I simply working with clients or am I transforming their outcomes?
- Am I confident guiding my clients where innovation is required?
- How proficient am I at business modeling, value proposition design etc?
- Am I playing to win or am I playing to not die?
- Is there more to explore to enhance my coaching skills?
- Is my coaching business flatlining, or in decline?
- Am I feeling imposter syndrome, in areas like design thinking?
- Have I done all there is to be an effective coach, or is there room for growth and enhancement in my coaching toolkit?

WHY THEY NEED YOU & WHY YOU NEED THIS BOOTCAMP

Founders need you now more than ever. With uncertainty being the most certain thing they can count. They need help amping up their business architecting, their venturing game, their innovation & orchestration skills to keep moving forward.

We surveyed coaches from across the country, and the number one reason they say they aren't transformational is because of the inadequacy of their toolkit; the one-size-fits-all hand-me-down approach is all they know. In short- they don't have a robust, relevant, rich, effective coaching toolset to draw from. Well, we do. Once you go through this training, you will have one too.

WHAT YOU GET OUT OF THIS

CULTIVATE DEEP EXPERTISE

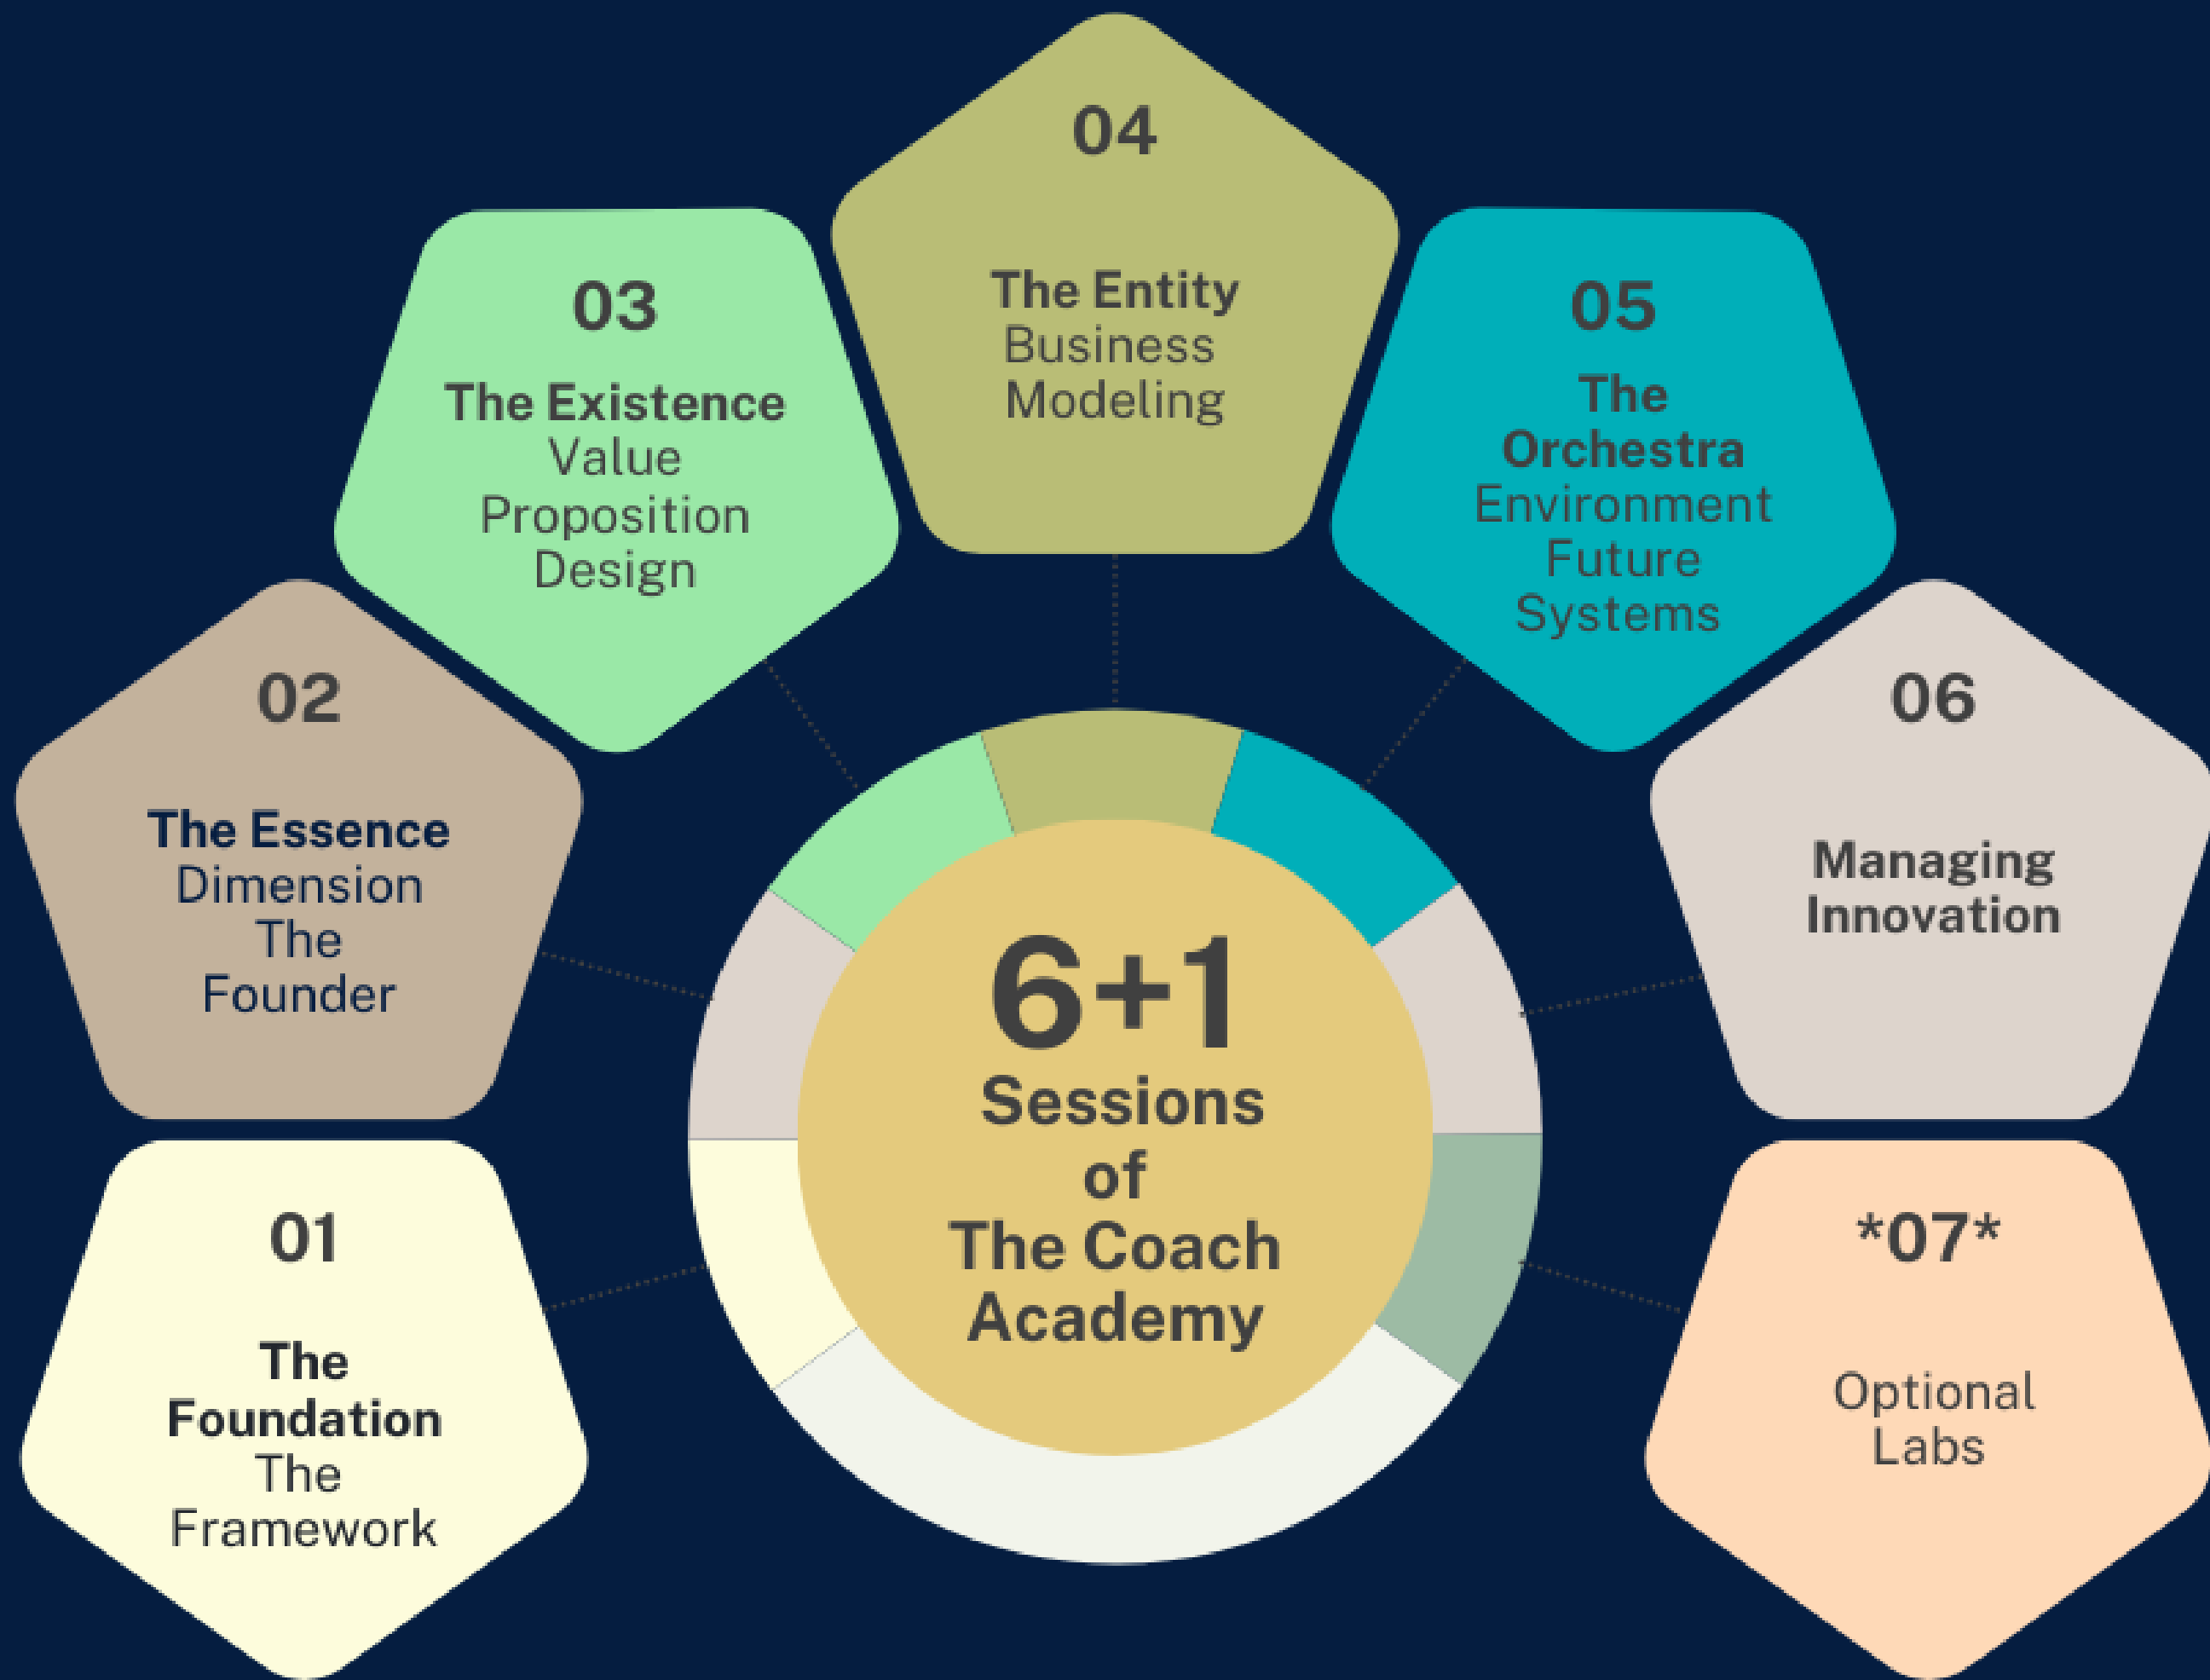

Develop deep knowledge, deep skills in innovation management

BECOME A HIGHLY EFFECTIVE COACH

Significantly level up your toolkit. More to offer your clients. More power to you!

TRANSFORM YOUR CLIENTS RESULTS

The quality of the coach determines the quality of client outcomes. More power to them!

MEET YOUR COACH

Ayebo Oparo

It was the fourth time at the graveyard...the business graveyard. You'd think I'd be battle-hardened and immune by the fourth, but no...this one smelted my insides... scorched every ounce of peace my rational self could cling to. This was all we had left in the world, absolutely everything, including the kid's milk money....There is not a rule we didn't rehearse, not a process we didn't perfect. And yet we still ended up in the graveyard. I was tired... bone tired. My highest and best was done. I was done.

But my soul...my soul flourished in the manure of my messiness...My mistakes were made for someone else's learning...my stumbling blocks were someone else's stepping stones. And so began the call, the quest to lift others up as I climb.

Hello, my name is Joanne Ayebo Oparo Eriaku and I am on an audacious, scary, exhilarating, uncomfortable, existential mission to equip a Million Venturers to Thrive. If it's being built from scratch, or from scraps – that's my mission. If the business venture is stagnant, freefalling, or floundering – that's my mission. My mission is to move owners from flapping to soaring. From busyness to business. I don't empower. I equip. For empowering implies I give power. That's not right. We all came self-contained ingredients all in. Mine is to guide, coach, teach, and equip how to turn them into a masterpiece.

I am not for everyone. I'm for onward motion, not for maintaining the status quo.

We are going to write a great story together....a story that ends with thriving, flourishing, extraordinary entrepreneurs. You can walk or be pushed. I'll accommodate either.
